

88 DP CLEANER

JULY 2002

Product Data

88 DP Cleaner is a quick working biodegradable cleaner for removing deposits of oil or grease from metal or previously painted surfaces. When washed off with water, 88 DP Cleaner leaves a clean surface with no oily film or residue. It cleans better than solvent type cleaners. When dry the surface is ready for either abrasive blasting (if required) or for application of a protective coating.

88 DP Cleaner is relatively non hazardous to use, as compared with other types of cleaning compounds. It contains no caustics, phosphates, or hazardous chlorinated solvents.

Uses

88 DP Cleaner can be used on metal, concrete, or previously painted surfaces.

Packaging

Available 20L

Product Specifications

Appearance: Clear to slightly hazy liquid

Specific gravity: 1.03

pH : 11.0 – 12.0

Health and Safety

88 DP Cleaner is an alkaline cleaner. Care should be taken to prevent eye contact and avoid prolonged or repeated skin contact. During application, wear safety glasses or goggles, waterproof gloves and a vapour respirator.

Application

1. Apply 88 DP Cleaner on the surface to be cleaned. For most application, 88 DP Cleaner can be reduced 2 to 3 times with fresh water. Use concentrated for greasy surfaces.

2. Allow 88 DP Cleaner to remain on the surface for 5 to 10 minutes, then scrub off with a broom or high pressure water wash. The longer the 88 DP Cleaner can be allowed to work before scrubbing, the more effective it is in loosening deposits.

IMPORTANT: Do NOT allow 88 DP Cleaner to dry on the surface.

3. Hose with water under high pressure. On rough or pitted surfaces, it may be necessary to scrub with a stiff brush while washing. Hot water or low pressure steam greatly facilitates removal.

4. If any deposits of grease or oil remain, repeat the application of 88 DP Cleaner and scrub with a cloth, or scrape deposit away.

5. Wash again with water as described before. Allow to dry before application of protective coatings.

First Aid

If poisoning occurs, contact a doctor. The Poisons Information Centre may be of assistance – telephone 0800 POISON (NZ), 13-11-26 (Australia).

If swallowed, do NOT induce vomiting. Give a glass of water to drink and get medical attention urgently.

If affected by vapour, get into fresh air immediately.

If splashed into the eyes, flush them with copious quantities of clean water for 15 minutes and get urgent medical attention.

If splashed onto skin, wash with soap and water.

For further information, refer to the Material Safety Data Sheet for this product.
